

## **CITY OF HAYWARD STAFF REPORT**

AGENDA DATE 12/10/03

AGENDA ITEM 4

**TO:** 238 Working Group

**FROM:** City Manager

**SUBJECT:** HAPA Proposal

At the last meeting, Sherman Lewis indicated HAPA has developed a proposal for the corridor it would like considered and evaluated. According to Mr. Lewis, this is a variation to the project presently under review.

I advised Mr. Lewis that staff is amenable to letting the Group determine whether it wants to spend time on a future meeting discussing the HAPA proposal. In this regard, I invited Mr. Lewis to prepare a one-page description to aid the Group in making such a determination.

The agenda item this evening is simply a procedural one. Specifically, the Group is asked to determine if it wants to agendize the HAPA proposal for discussion and action at a future meeting. If the response is in the affirmative, the item will be placed on a future agenda, at which time the Group will have an opportunity to review and discuss the substance of the proposal.
